Thanh T. NGUYEN

(082) 010-2883-2792 thanhnt@unist.ac.kr www.thanhnguyentang.github.io Ulsan National Institute of Science and Technology (UNIST) School of Computer Science & Engineering 50 UNIST, Ulsan, Korea 44919

EDUCATION

• Ulsan National Institute of Science and Technology (UNIST), South Korea Mar. 2018 M.S. in Computer Science & Engineering (GPA: 4.3 / 4.0)
Thesis: Parametric Information Bottleneck to Optimize Stochastic Neural Networks
Advisor: Jaesik Choi

• Da Nang University of Science and Technology (DUST), Vietnam

B.S. in Electronic and Communication Engineering (valedictorian)

Jul. 2015

• Da Nang Le Quy Don high school for gifted students, Vietnam
High School Diploma in Mathematics

Sept. 2010

Research Interests

Deep Learning, Computer Vision, Probabilistic Modeling, and Natural Language Processing.

EXPERIENCE

• Researcher Mar. 2018 - present Ulsan National Institute of Science and Technology (South Korea), School of Computer Science & Engineering, Statistical Artificial Intelligent Lab (SAIL).

• Research Assistant Mar. 2016 - Mar. 2018 Ulsan National Institute of Science and Technology (South Korea), School of Computer Science & Engineering, Statistical Artificial Intelligent Lab (SAIL).

• Teaching Assistant Aug. 2015 - Mar. 2016

Da Nang University of Science and Technology (Vietnam), Center of Excellence, Electronic and Communication Engineering.

• Mobile Network Intern & Engineer
Viettel Network Corporation (Vietnam).

Jan. 2015 - Aug. 2015

• Teaching Assistant & Research Assistant Oct. 2014 - Jan. 2015
Da Nang University of Science and Technology (Vietnam), Center of Excellence, Electronic and Communication Engineering.

Publications

- (Master Thesis) Parametric Information Bottleneck to Optimize Stochastic Neural Networks. In ScholarWorks@UNIST, 2018.
- (Under Review) **T. T. Nguyen**, and J. Choi, Layer-wise Learning of Stochastic Neural Networks with Information Bottleneck, 2017, arXiv 1712.01272.

Selected Awards

- Ulsan National Institute of Science and Technology Postgraduate Scholarship, 2016;
- Valedictorian and the sole First-Class Graduate in the Electronic and Communication Engineering Program at the Center of Excellence (an advanced engineering program), Da Nang University of Science and Technology, 2015;
- Scholarships for Outstanding Academic Excellence from Da Nang University of Science and Technology in 2010 2015;
- JENESYS 2.0 Exchange student by Japan International Cooperation Center 2015;
- Sunflower Mission Engineering & Technology Scholarship by eSilicon and Texas Instrument, 2014;
- Third and Second Prize in Mathematics Competition of Da Nang University in 2012 and 2013 resp.;
- Takemoto Denki scholarship in 2012; Lawrence S.Ting scholarship per academic year from 2013 to 2015; Nguyen Thai-Binh Scholarship in 2013; Thanh-Nhan Scholarship in 2013;
- First Prize in the National Competition of Solving Mathematical Problems by the Journal of Mathematics and Youth, 2010;
- Silver Medal in Southern Vietnam Mathematics Olympiad, 2008;
- First Prizes in Da Nang Mathematics Competition for high school students in 2008, 2009, and 2010.

SKILLS

Programming languages : Python, Java, C++, C, MATLAB.

Deep Learning frameworks : Tensorflow, Theano, Caffe.

Parallel Computing frameworks : OpenMP, MPI, CUDA, pthreads.

LANGUAGES

Vietnamese : Native

English : Proficient (TOEFL iBT score of 96)
